| 8. | <input type="checkbox"/> | <input type="checkbox"/> | On the basis of your clinical observation, visual or otherwise, do you recommend applicant be required to pass a driving test? If yes, please explain: _____ |

***NOTE: IF THERE IS ANY IMPROVEMENT WITHOUT ADVERSELY AFFECTING THE PATIENT'S CONDITION, CORRECTIVE LENSES MUST BE WORN.**

ATTENTION ALL APPLICANTS

ALL APPLICANTS WHO FAIL TO MEET MINIMUM VISION REQUIREMENTS MUST TAKE THIS FORM TO THEIR EYE SPECIALIST, AFTER IT IS COMPLETED, THIS FORM MUST BE RETURNED TO THE DRIVER LICENSE EXAMINING OFFICE.

INSTRUCTIONS TO THE EYE SPECIALIST

All applicants for licenses and persons being re-examined are given simple vision tests by driver license examiners; but when more accurate measurements are needed, when an improvement in vision would add to safety, or when unusual eye defects are found, the person is asked to visit an eye specialist. A report from such specialist is particularly valuable if the fitness of a driver is questioned in court, or following a crash. In some cases, examinations by more than one specialist are requested as stated in next paragraph.

A difference of more than 20 points between the eye specialist's readings and the examiner's readings will warrant referral to a second eye specialist **ONLY** if that difference results in the applicant not meeting the minimum vision standards for licensing in Florida. No recommendations or suggestions as to which specialist to visit are given by the driver license examiners. Only reports from licensed eye specialists will be acceptable. The eye specialist assumes no responsibility in making this report other than that of representing the facts.

FLORIDA MINIMUM VISUAL STANDARDS FOR LICENSING

All drivers are required to have the best possible vision

20/50 Or worse in either eye with or without corrective lenses are referred to an eye specialist for possible improvement.

20/70 In either eye, or both eyes together may pass with or without corrective lenses, if vision cannot be improved; however if one eye is blind or 20/200 or worse, the other eye must be 20/40 or better.

130 degrees ... Minimum acceptable field of vision.

The use of telescopic lenses to meet visual standards is not recognized in Florida.
